Do you have the time, human capital, political risk profile, and budget to operate without adequate Professional Engineering & Technical Support?

Allow APARIQ, Inc. to bring the Power of Intelligent Knowledge Management and Best Practices to your Professional Engineering & Technical Service (PES) needs (under our GSA Corporate Contract SIN C R425) to provide:

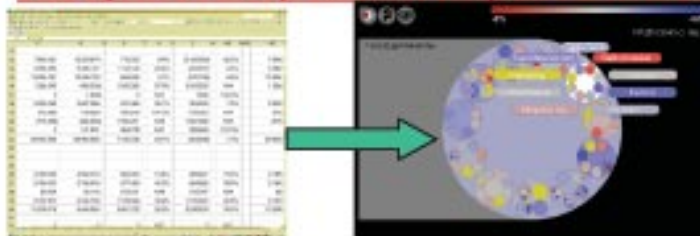

- **Strategic Planning for Technology Programs/Activities** (Cross-Referenced to SIN 871-1)
- **Concept Development and Requirements Analysis** (Cross-Referenced to SIN 871-2)
- **System Design, Engineering, and Integration** (Cross-Referenced to SIN 871-3)
- **Test and Evaluation** (Cross-Referenced to SIN 871-4)
- **Integrated Logistics Support** (Cross-Referenced to SIN 871-5)
- **Acquisition and Life Cycle Management** (Cross-Referenced to SIN 871-6)

ARE YOU EFFECTIVELY USING THE AVAILABLE KNOWLEDGE?

Fractal Merged (Exploded View) Visualization of Data

Example of Labels that Appear (on Mouse Over) from Data Injected from Spreadsheet Templates of Network

Some of the benefits of working with APARIQ include:

- Better definition of the reasons for collection of information and learning where the knowledge resides;
- Navigate large information sources quickly;
- Better processing, validation, and interpretation of information to determine reasonableness and consistency;
- Dynamic planning and systematic integrated adjustment to programs as the unforeseen emerge;
- Helping you locate and integrate adequate knowledge both inside and outside of your organization;
- Early identification of discontinuities among plans, budgets, technology reality, schedules, and objectives.

Please contact us so that we can demonstrate how we can add value to your challenges, lower your costs, reduce your risks, and dynamically plan:
